* Comprehensive Global Patent Research with Patentability Opinion, Knock-Out Global Patent Research and/or Design Patent Research are not infallible. A preliminary, pre-examination search of reasonable duration, even when utilizing all of the major world-wide data collections, may not (and realistically will not) find all prior art in existence throughout the world, especially due to the subjective nature of prior art interpretation and prior art classification practices at regional patent offices.

** Dollar amount shown for Non-Provisional Patent Application filed from Provisional Patent Application which Inventech Patent Services, LLC wrote does NOT include possible additional charges for *excessive* additional content added to the Non-Provisional Application.

DISCLAIMER

All fees outlined above are subject to change without notice. The current fee schedule dollar amounts and time estimates are typical, and while every effort is made not to deviate from the current fee schedule, extra fees may be quoted (up-front) in certain extraordinary circumstances (such as in “jumbo” applications requiring an unusually large number of specification pages and/or claims to be written). Inventech Patent Services, LLC makes every effort to keep fees as affordable and reasonable as possible for our valuable clients, while being transparent and forthright with no “hidden fees”. *Any necessary travel costs (outside of the State of Michigan) are not included in any of the listed fees.*
